

DRC Conflict Minerals Dodd-Frank Wall Street Reform and Consumer Protection Act

Keller is pleased that your company is a member of the community of companies committed to focusing on human rights. We share the concern of our customers that the trade of gold, columbite-tantalite (coltan) or its derivative tantalum, cassiterite or its derivative tin, wolframite or its derivative tungsten, (the “Conflict Minerals”) sourced from the Democratic Republic of the Congo, Sudan, Uganda, Rwanda, Burundi, United Republic of Tanzania, Zambia, Angola, Congo, or the Central African Republic (the Covered Countries”) may come from mines or trading routes controlled by armed groups in the Covered Countries. It is our policy not to knowingly purchase any raw materials that contain Conflict Minerals that directly or indirectly finance or benefit armed groups in the Covered Countries.

The supply chain associated with Conflict Minerals is complex and we have been working with our suppliers to determine the sources of the Conflict Minerals in the raw materials supplied to us. The responses that we have received to date indicate that none of the tantalum, tin, tungsten, or gold in the raw materials supplied to us is sourced from mines located in the areas under the control of armed groups in the Covered Countries.

The products supplied by Keller are not intentionally manufactured with the listed Conflict Minerals as per Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act; however, we do not analyze for these specific substances or compounds.

- **Columbite-Tantalite – refined into Tantalum (Ta)**
- **Cassiterite – refined into Tin (Sn)**
- **Wolframite – refined into Tungsten (W)**
- **Gold (Au)**

We are disclosing the above information, to the best of our knowledge, based upon data from our raw material suppliers. We believe this information to be accurate and reliable as of this date.
